Subject: FW: Sample submission
Importance: High

Tim,

Was this something we (NERL-EMMD) had set up with NC for the Cape Fear problem?

Even this far out West I've seen the news stories.

I'd like for one of us to get back to Mr Johnson soon.

Tammy

Subject: Sample submission

Good morning. I am trying to find contact information for the ORD Laboratory in RTP, NC, specifically the area that can analyze polyfluorinated organic samples in surface water. I was given your name as one of the contacts for that laboratory.

We are currently sampling the Cape Fear River in eastern North Carolina for compounds related to a processing aid in Teflon production. We would like to deliver these samples to the appropriate location here in RTP. Please contact me regarding who to call about this. I appreciate your help and hope you have a nice day.
